Type of Activity	Place of Activity	Type of Cancer	Services	Outcomes	Effectiveness
Total Impacts:	207	688	<p>The Municipality of Arecibo was carried out under the protocols of the Covid 19 pandemic. Again the demand for Dermatologists services were high, taking in consideration that this municipality has 2 Dermatologists and 3 hospitals in the region. The Accessibility Barrier Surveys by our Social Work Department reflected that it is the first with the highest levels of schooling and 99% had a private medical plan compare with other municipalities.</p>
